

## **EEStor, Inc. is Pleased to Announce that Morton L. Topfer has Joined the EEStor, Inc. Board of Directors**

CEDAR PARK, Texas, Jan. 9 /PRNewswire/ -- EEStor, Inc. is pleased to announce that Morton L. Topfer has joined the EEStor, Inc. Board of Directors. Mr. Topfer is the Managing Director of Castletop Capital L.P., an investment firm that focuses on private equity and real estate investments. EEStor will look forward to capitalizing on the tremendous experience and successes that Mr. Topfer will bring to our board.

Before joining Castletop Capital in 2002, Mr. Topfer was Vice Chairman of Dell Computer Corporation, counselor to Dell's Chief Executive Officer and a member of Dell's office of the Chief Executive Officer. Before joining Dell in 1994, Mr. Topfer held various positions with Motorola, Inc., last serving as Corporate Executive Vice President and President of the Land Mobile Products Sector. Before joining Motorola in 1971, Mr. Topfer spent 11 years with RCA Laboratories in various research and development and management positions. Mr. Topfer also serves on the Board of Directors of Advanced Micro Devices, Inc. and Measurement Specialties, Inc.

### Company background

EEStor, Inc. is developing a solid-state electrical energy storage unit (EESU). This technology anticipates having a wide variety of applications with the added benefit of being longer lasting, lighter, more powerful, and environmentally friendly. EEStor's vision also includes EESU's facilitating the conversion of wind energy and photovoltaic technology into primary electrical energy providers. This intern will vastly increase the role of renewable energy in the world's energy production markets. EEStor has 1 patent issued, with an additional 17 patents in process.
